SPECIAL NOTICE to our customers: Please don't confuse our prices with so-called Imported Bulbs, which leave out the name of the country from which imported. There are two main sources from which Tulip Bulbs are shipped, Holland and Japan. We have tested both sources. Japanese import is cheaper, however we have found that Holland Bulbs are best as far as flowering, name and color are concerned. So, we have decided to offer you the best and cheapest, for your money.

We only import and sell Holland or American grown bulbs. Until Japanese growers can give better variety, selection and guarantee trueness of name and color, we will only ship bulbs that are guaranteed to please you, from our Holland and American growers. If and when we ship Japanese imported bulbs, we will so designate by giving country of origin. So, buy with confidence from us. Our bulbs will please you.
